Education

University of the West Indies, St. Augustine

St. Augustine, Trinidad

B.Sc. Computer Science

October 2024

Certifications: Google Advanced Data Analytics Professional Certificate (Oct 2024); Udacity AI with Python Nano-Degree Scholarship (2023)

University of Trinidad and Tobago

John Donaldson Campus

Diploma in Software Engineering

August 2018

Professional Experience

Part-time Tutor

January 2025 - April 2026

University of the West Indies

St. Augustine, Trinidad

- Taught CI/CD, design patterns, and testing workflows to 40 students across 2 courses, achieving a 90% first-attempt pass rate.
- Trained the cohort on Git and GitHub pull-request workflows, driving 100% adoption and a 60% drop in code conflicts.

Full Stack Developer

September 2024 - May 2025

Scarlet Creative Software

Remote

- Rebuilt a multi-step form system in HTML, CSS, TypeScript, NuxtJS, and Firebase Cloud Functions, cutting form creation time by 40%.
- Built a RAG chatbot with FastAPI, Next.js, GCP, and PineconeDB, answering natural-language queries at 85% accuracy.

Technical Projects

Multi-Dataset Fraud Detection Pipeline | *Python, XGBoost, scikit-learn, SMOTE*

2025 - 2026

- Benchmarked 5 sampling strategies and 3 model families across 7M+ transactions (774:1 imbalance).
- Tuned XGBoost with a custom cost function, reaching 96.9% fraud recall and cutting detection cost by 40%.

Starbucks Customer Segmentation & Offer Recommendation | *Python, XGBoost, K-Means, SHAP*

2025

- Trained an XGBoost classifier (0.909 AUC-ROC) on 306K+ events using 43 SHAP-explained features.
- Segmented customers into 4 profiles via K-Means, lifting offer completion by 7.9%.

Multi-Agent Spec Generator (specs before code) | *Next.js, TypeScript, FastAPI, PostgreSQL*

2026 - present

- Built a full-stack multi-agent system (Next.js/TypeScript frontend, FastAPI backend) that drafts persona-based PRDs via LangGraph agents on NVIDIA NIM and Pinecone.
- Modeled a PostgreSQL schema (SQLAlchemy, Alembic) to persist LangGraph agent checkpoints, with a pytest suite and Dockerized deployment to Hugging Face Spaces.

Technical Skills

Systems Analysis: Requirements Gathering, Feasibility & Gap Analysis, UAT, Change Management

Data & Reporting: Power BI, Excel (Advanced), SQL, ETL Pipelines, Data Analysis, ML

Languages & Databases: Python, JavaScript, TypeScript, SQL, Java, MongoDB, PostgreSQL

Frameworks & Platforms: FastAPI, React, Next.js, Express.js, Django, Angular, NestJS

Cloud & DevOps: AWS, GCP, Azure, Docker, CI/CD, GitHub Actions, Firebase

Practices: ITIL-aligned Service Delivery, Agile, RESTful APIs, Full Stack Development, Git, DevOps
